Ladies and Gentlemen;

1. It is my great pleasure to be here today as we launch the Fourth Medium Term Plan (MTP IV) 2023–2027 of the Kenya Vision 2030. This gathering signifies a powerful convergence of minds, a collective commitment to our shared vision of a prosperous and harmonious society. Together, we stand at the threshold of transformative change, ready to embrace new horizons and strive towards a better tomorrow.
2. The Bottom-Up Economic Transformation Agenda serves as the guiding principle of the MTP IV. The Agenda aims to uplift the lives and livelihoods of those at the bottom of the pyramid and eliminate wastage

due to ineffective coordination in the implementation of programmes and projects.

Your Excellency,

3. The mainstreaming of regional and international development agendas into the MTP IV represents a pivotal step towards a more interconnected and prosperous future. By aligning our national priorities with broader shared goals, we are not only embracing a spirit of cooperation but also acknowledging the interconnectedness nature of our world.
4. This will allow us to tap into the collective wisdom and resources of the global community, ensuring that our development efforts are not isolated but resonate with the Sustainable Development Goals (SDGs), the African Union Agenda 2063, the East African Community Vision 2050 among other international obligations. In doing so, we amplify the impact of our initiatives, foster partnerships, and, most importantly, contribute to a more sustainable and equitable world for current and future generations.
5. Through my office, Your Excellency, I intend to strengthen current bilateral and multilateral collaborations while fostering new ones in order to increase opportunities for economic empowerment complemented by strong regional integration. I also want to encourage our Diaspora Community to participate in the implementation of the MTP IV. Through their involvement in the implementation process, Kenya will benefit from their skills, investments, and networks, driving us to the global stage.

Your Excellency,

6. The implementation of MTP IV will be undertaken by the respective implementing Ministries, Departments, Agencies, Constitutional Commissions and Independent Offices through a collaborative approach. The National Development Implementation Committee will coordinate implementation, monitoring and evaluation of all National Government policies, programmes and projects. My office will provide timely guidance on the appropriate measures to be undertaken to address the challenges constraining the implementation of programmes and projects.
7. To fast-track implementation of the MTP IV and achieve the national development agenda, my office will: provide oversight to ensure public participation and the involvement of other stakeholders in the development of legislations, coordinate processing and enactment of legislations, provide timely guidance on the appropriate measures to be undertaken to address the challenges constraining the realization of the legal framework and monitor and evaluate the progress of policies and legislations to ensure the objects of the National Government intended in the legal framework are met within good time and are constitutional.
8. **As I conclude Your Excellency,** I wish to remind each and every one of us the fact that we all have a role to play in moving our country to greater heights of prosperity.

Thank you
