What are SDGs?

In September 2015 UN General Assembly members adopted the 2030 Development Agenda for achieving a better future for all. The Agenda is based on global SDGs, which integrate the economic, social, and environmental dimensions of sustainable development. The agenda addresses three critical issues: Eradication of poverty; Reducing inequalities within and among states; and Ensuring sustainability of the earth and its life support systems. At the heart of this agenda are 17 Sustainable Development Goals, 169 related targets and 230 indicators that address challenges related to governance, economic, social, and environment. The 17 SDGs are:
